

10/17/17

**AF Bridgeport Academy Middle School
529 Noble Avenue.
Bridgeport, CT**

Dear Parents and Staff:

The administration of AF Bridgeport Academy Middle School would like to provide you with notification that initial radon-in-air testing will be conducted on November 6th, 2017. According to Connecticut General Statute 10-220(d), schools are required to inspect and evaluate the indoor air quality of school buildings every 5 years. This required inspection and evaluation of indoor air quality includes evaluation of radon in air and water.

Mystic Air Quality Consultants, Inc. will conduct the radon testing. To test for radon in air, small canisters containing charcoal will be placed in each of the lower level, occupied rooms in contact with the ground. These canisters will be left in place for 2-3 school days. Radon testing results will be kept in the Main Office and available at your request. In the event that re-testing is necessary or high radon levels are found, you will be notified and steps will be taken to correct the problem using methods suggested by the United States Environmental Protection Agency.

Please read the enclosed educational pamphlet describing radon and the school testing program effort. If you have further questions or concerns regarding radon, please feel free to contact the City of New Haven Health Department at (203) 946-8200, or the State of Connecticut Department of Public Health Radon Program at (860) 509-7367.

Thank you, in advance, for your cooperation.

Regards,
