

Dear Principal Supervisor,

Your principal is applying to participate in Navigator, a program which will support his/her school in adopting an elementary math program with proven results. We are very excited about potentially supporting your principal in the coming months, and would like to ensure that you are fully in support of his/her school's participation in the program. Please review the program overview and discuss the program commitments with your principal. Once you have done this, please sign below to indicate that you are fully in support of his/her application to the program.

Should you have any questions for our program team, please don't hesitate to contact me at LainaVlasnikYip@achievementfirst.org.

Warm regards,
Laina Vlasnik Yip

I support (school name) _____, led by (principal name) _____,
in his/her application to Navigator.

Signed _____
